FRONT-END DEVELOPER

Frontend Developer with hands-on experience building responsive and interactive web applications using React.js, JavaScript, TypeScript, Tailwind CSS, and Next.js. Experienced in developing reusable UI components, integrating REST APIs, consuming and managing backend data, and troubleshooting existing applications. Also experienced with full-stack development using Node.js and PostgreSQL, giving me a strong understanding of how frontend applications interact with backend services and databases. Strong problem-solving skills with a focus on building practical, maintainable, and user-focused solutions.

Work Experience

Oneflare Tech Solutions, Lagos

Front-End Developer | 2025

- Revised and updated old code bases to modern development standards, improving functionality and enhancing user experience.
- Developed reusable React components to improve UI consistency, maintainability, and user experience.
- Maintained and enhanced existing applications, identifying and resolving bugs and improving functionality based on evolving requirements.
- Collaborated with backend developers to integrate REST APIs and connect frontend interfaces with application data and services.

Septa, Lagos

Front-End Web Developer | 2024

- Developed dynamic, responsive web applications using React.js and Tailwind CSS, with emphasis on usability and responsive design.
- Developed a full-stack CRUD application, building user-friendly interfaces and integrating RESTful backend services.
- Built a full-stack application using Node.js, PostgreSQL, and React.js, implementing data creation, retrieval, updates, and deletion.
- Integrated frontend applications with backend APIs and worked with application data to support dynamic user interactions.
